Tárgy:

Dear Eli,

I received with thanks your letter, Christmas greetings, and the enchanting gift. You are much in my thoughts. It would be good again to have a chat with you in Budapest! Your lady-friend from Cyprus was very gentle, charming, we made friends with her, too, and the time she visited us, I could to say fewer about the continuation of Hip-Hop than now. As you know, Vangelio lives in bad circumstances. He may now begin to be occupied in literature. Several details of the new Hip-Hop he turned over already to the planned album for the age-class 6-10 years /which, however slowly, is being made/. I know these details, they are very beautiful. We would like you to send us your new Hip-Hop-tales for a greater tome. With Vangi we think so that by the time we receive them, perhaps he also will began to work.

I send my greetings to your family.

With much love

Iva Agost
