UNIVERSITY COLLEGE OF THE SOUTH WEST.  
EXETER.

DEPARTMENT OF EDUCATION AND PSYCHOLOGY.  
PROFESSOR STANLEY H. WATKINS.

Mr. N. Xioutas was a member of this college and of this Department during the session 1936-1937. He came here to make a special study of educational methods, and more particularly of the teaching of History in our schools. He attended courses in the History of English education, the Principles and Psychology of Education and in the Method of History teaching. He was also a member of Professor Douglas' History class and attended courses in European History under Mr. Hancock. He also paid a series of visits to Secondary and Central Schools in the area, paying particular attention to the teaching of History. The reports he wrote upon the schools were detailed and very carefully written. They were marked - "Excellent". He appeared to have derived considerable benefit from his study of the various methods of teaching employed in these schools.

Mr. Xioutas is a man of considerable ability, who gained the respect of his tutors and benefited from the courses he took. He should be able to apply the knowledge he has gained to good effect.
