Dr. A. A. A. A.

You have to ask for Cyprus Sherries or Cyprus table wines to get that something special which only comes from 'the original vineyard in the Sun'.

The origins of winemaking in Cyprus are lost in the mists of time but not the knowledge of how to

make the wines that offer the best value.

Cyprus is already the third largest supplier of wines to Britain where nearly twenty-five million bottles are consumed by the discriminating wine and aperitif drinkers.
