Dear miss Ellie and Panicos

First I have too excuse, that I havent whrite before and second my very bad english.I hope you will understand my letter.

It isn't because I been lazy, but more because it is difficult for me to whrite english and that I have been working and studing very hard, and that we have a lot to do with the rearming situation.

I haven't forgotten my wonderfull days in Cyprus and the kindness I meet between your people and specially in your family. I hope my economy in the future will give me the possibility to return to your contry.I try my best to follow the situation in Cyprus, but it is only few informations we get in Denmark.

After our return to Denmark we make a little rapport or piece over what we have seen and spoken about.The informations we got from you has a big place here.

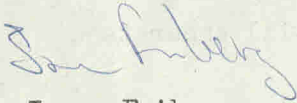

Some months after I whrite an artichel in our communist paper Land og Folk.It became a good receipt on the editing, and a fine place in the newspaper.And so Panicos, (i hope your name is correct) your photograph is known in Denmark among the revolutionary people. A lot a people told me, it was good to read about Cyprus, and the problems there, who nearly is unknown for the majority.Even you don't understand danish i put this part of the papers in the letter.

A cousin to my divorcid man is married with a women from Cyprus, has been reading the rapport and the artichel and she is very positive surprised over how much I have understand og recognized a lot.Now she is working on translaiting Ellis childrenbook.About the result I will whrithe later. I hope your all, are healthy and hopefull,and

still looking forward to a shining future.

Specially greethings to your son, I remembered to send the letter
he ask me for.

Kind and chummy regards
