Panikos,

my real friend. I couldn't write to you since very long time. Because I was waiting to have some concrete results, we had decided with Nikos so.

Now I have a room to rest. And I am waiting to get residence permission still. I am planning to come you even when I got my papers. But now, as you know, happened most important evolutions. So I began work without waiting to have residence paper. However they promised me that they shall give my papers as soon as early.

Now, I am sending some documents to you. And I shall continue to keep ~~about~~ our contact with you. I shall write all of informations to you immediately when I have. I informed to WPC. And we decided to start a campaign for freedom of our friends.

Thank you for everything. Greetings to your family. Hope to see you ~~soon~~ fraternally.
