There is always a periyali
where there is a Cypriot -
and a glass of ouzo is the
transfusion that spirits our
hilarity!

Tonight, on May 25, 1995
in this exilic periyali in
New York, we meet at an
island, a nomadic home
we constitute together on
this archipelago of Cypriots
that spans the world.

We are home & family
whenever we are together.

To Our Dear Trahanes -

-- Our friends both nourishing and
delicious, the truest of Cypriots -

of the village which is the world's dream.
We love you to the depth of the

Sometimes

I've lost my reason to live

Most times

I'm drowned in excess of life

Sometimes

I've forgotten to live

Most times

I burn out all my lives

Until I met you

My mirrored image

A haunting memory

From so many lifetimes

And then I found you

My twin brother

My lover from beyond

Only to lose you

And feel the desire

For the strangely familiar

I'm going through withdrawal

Only to wander

How absurd life can be

Yet mystifying after all

June 8 95

Dear Elli + Panos,

How fitting after all, this visit of yours, a wonderful gift, finds me in the midst of shooting several films and going through a love story of some sort. And yes I will go to Cyprus, not only to visit you but also worship Aphroditis for it is about time. So ^{she} knows on which island we'll meet next but no doubt will it be magical.

The first part of the paper
 is devoted to a general
 discussion of the
 problem. It is shown that
 the problem is of the
 type of a boundary value
 problem for a second order
 elliptic equation. The
 main result of the paper
 is the proof of the
 existence and uniqueness
 of the solution of the
 problem. The proof is
 based on the method of
 the maximum principle.
