## MORE THAN A BUSINESS

'We decided it was time to end the almost customary half-hearted manner in which cheap editions were produced – as though the only people who could possibly want cheap editions must belong to a lower order of intelligence. We, however, believed in the existence in this country of a vast reading public for intelligent books at a low price, and staked everything on it'

**Sir Allen Lane, 1902–1970**

'The Penguin Books are splendid value for sixpence, so splendid that if other publishers had any sense they would combine against them and suppress them'

**George Orwell**

'More than a business ... a national cultural asset'

**Guardian**

'When you look at the whole Penguin achievement you know that it constitutes, in action, one of the more democratic successes of our recent social history'

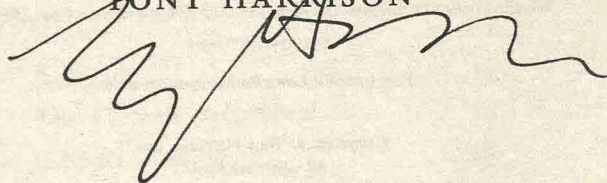

**Richard Hoggart**
