Dear Panos,
Greetings to you both.
Don't forget to send me
a photocopy of the ancient
old music you said that
Papadopoulos found. Thank
you

Dear Mr. Pevsner

Many thanks for letting me see this text. It is too flattering, but otherwise I cannot find anything to object to. Perhaps a note of chronological caution might be introduced in the fourth line of the second page, either as indicated or you could say $\tau_{0v} 12^{\circ}$ $d'wva$.

Two sends his love, and a card
has with your sincerely
David Hunt
