Βίαιος εξουχίος, ναδικεφείν
τε λιν εξουχίον ηγίωκα, ναδ
νδγε να λιν ναδικεφείν να
ηγίωκα λιν Ερωτών

κ. Ἑλλη Παιονίδου
Λομεσσός (Κύπρος)

Dear friend,

A new new year is coming and also τὰ Χριστούγεννα, the liberty of your country from the invasion is still not obtained. Thus with my best wishes for these holidays, I also express my hope that the Liberation of your country will happen nextly.

This year I have been in Athens in the month of May. I had been invited by the Greek Government. They had come to know of our activities within the **Jakintza-Baitha** - Καλιὰ τῆς Γνώσεως, and also read what I say in my book *Computer Shock*.

(In this book I made a defense of the Greek Culture and the Classical Greek as being the base of the European Culture, and even Europe.)

My idea here exposed is that the Greek Culture is the Culture of the balance, between two tendencies, of the Human spirit. The first tendency, I call with Nietzsche the Dionysiac trend, but then according to my opinion the opposition is not the Apollonian trend, but the Mercurial (that of Ἑρμῆς), whilst the Apollonian trend is the balance between the two extremities. This is also according the Mordern investigations of the human brain, In this sense the Dionysiac faculties are located in the right hemisphere, whilst in the left hemisphere are located the Mercurial tendencies, and faculties, whilst the *Corpus Callosum* of our brain, uniting the two hemispheres, is really the locus of the Apollonian faculties. Thus I expressed that the Indian Culture is a Culture in which is prædominant the Dionysiac trends, the Chinese Culture in which are predominant the Mercurial trends. As far as the Moslem Culture could have some personality, I accept the point of view of Ibn-Khaldun, who said that in the Arabic of Moslem Culture, every thing, except the religion is "aggeni" (foreign) and thus mostly Greek.)

In Athens I had been accepted as Ordinary member (ἐταῖρος) of the Ἑταιρεία τῶν Παραδοσιακῶν Σπουδῶν, and a Diploma in this sense was handed over to me by the Director of Foreign Relations of the Υπουργεῖον τοῦ Ἑλληνικοῦ Πολιτισμοῦ

One of the members of our **Jakintza Baitha** (M. Pujana) who has been twice the President of the Basque Parliament, is member of a Basque Nationalist Party, (E.A. Eusko Alkartasuna) and they have in Strassburg-Brussels, an Euro-Deputy, thus I have convinced them to present during the next weeks, a law proposition to the European Parliament, demanding that the Classical Greek Language ought to be accepted as the Common Language of all European Nations, being Greek the roots and trunk of our culture,

and also being Europe, firstly a (Greek) Cultural Unity, which now we want to develop to a political Unity..

I have written for him the arguments he ought to present in his petition, now I am waiting that Mr. Garaikoetxea, - that is this Basque Euro-Deputy- will do his proposition. As soon as we have some positive results I will write you once again hereabouts.

With may best wishes for you and your family

faithfully
yours

Federico Krutwig
